DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 18, 21-25, 37, 39-43 and 54, drawn to DNA, vector, cell, and method of making protein.

Group II, claim(s) 19, 20, 31, 32, 38, 49, 57 and 58, drawn to protein.

Group III, claim(s) 26 and 44, drawn to antibodies.

Group IV, claim(s) 27 and 45, drawn to immunoassay.

Group V, claim(s) 28 and 46, drawn to screening method using protein.

Group VI, claim(s) 27 and 47, drawn to screening method using DNA.

Group VII, claim(s) 30, 34, 48, 51, 55, 56 and 63-65, drawn to pharmaceutical agent obtained from screening method.

Group VIII, claim(s) 33 and 50, drawn to antisense nucleic acid.

Group IX, claim(s) 35 and 52, drawn to method for detecting Alzheimer's disease using polynucleotide.

Group X, claim(s) 36, 53, 59-62 and 66-68, drawn to method of preventing or treating Alzheimer's disease.

The inventions listed as Groups I-X do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or

corresponding special technical features for the following reasons: since WO98/21328, cited in the International Search Report) teaches DNA and polypeptides corresponding to those claimed herein, the concept of such nucleic acids or polypeptides do not constitute a special technical feature, defined as a contribution over the prior art.

Since Groups I-X do not share a corresponding special technical feature, they are not so linked as to form a single inventive concept under PCT Rule 13.1.

2. A telephone call was made to James Hamilton on January 5, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
